Payments
Innovation Alliance®

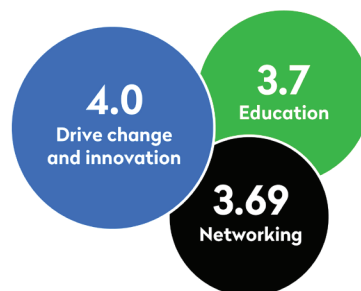

Who We Are

The Alliance seeks to grow and advance payments innovation to better meet the needs of the modern ACH Network and the evolving payments industry.

We are 198 member organizations strong, with more than 1000 Alliance contacts. If you're not yet a member, we hope you'll join us soon!

Why organizations join?

(ratings are on a scale of 1 to 5)

How We Do It

Much of our work is performed by our project teams. Our current teams include:

- Conversational Payments
- Cybersecurity Response
- ACH for Developers
- Faster Payments Playbook
- Faster Payments Professional Certificate
- ACH Quick Start

What We've Done

What We're Doing Next

The Conversational Payments and Cybersecurity Response project teams have launched a series of executive briefings on voice payments. Our latest effort is being released at Smarter Faster Payments 2022. "Voice Payments: Contractual Considerations for Financial Institutions" is a legal and risk mitigation resource guide for financial institutions seeking to implement voice payments skills through smart devices, such as the Amazon Echo and Google Nest. Look for recent and future Executive Briefings at nacha.org/alliance-download-conversational-payments-resources.

Where We'll Be
